

## ISO 3834

### QUALITY REQUIREMENTS FOR WELDING

Demonstrates an ability to meet quality requirements of a specification, product standard, or regulatory requirement. Conformity is globally recognized and assures owners, OEMs and clients.

# ISO 3834 CERTIFICATION SERVICES

[DOTQS.COM](http://DOTQS.COM)

## WELDING-SPECIFIC QUALITY

Many companies achieve quality management system certification through various international standards. Yet most general certifications are unlikely to demonstrate the requirements to fully control welding processes. ISO 3834 compliance demonstrates adherence to specific codes, demands of individual industries or client-specification prerequisites.

DOTQS evaluates organizations for ISO 3834 certification. We provide certification services worldwide with managed audits that include actionable reports with comprehensive, objective evidence to support observations and recommendations for improvement.

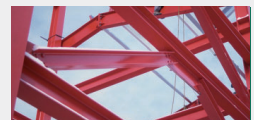

## 3 LEVELS OF ISO 3834 CERTIFICATION

**ISO 3834-2  
COMPREHENSIVE  
QUALITY  
REQUIREMENTS**

**ISO 3834-3  
STANDARD  
QUALITY  
REQUIREMENTS**

**ISO 3834-4  
ELEMENTARY  
QUALITY  
REQUIREMENTS**

## BENEFITS FOR MANUFACTURERS AND CLIENTS

- Demonstrate conformity to an international quality management standard
- Clients can follow clearly how your firm assures quality of the welding process meeting contract requirements
- Increase national and international business clients and ease their acceptance of your products manufactured under a certified quality system.
- Supply to equipment manufacturers supplying the EU and Asia.

# STEPS TO CERTIFICATION

SIMPLE OR COMPLEX PROCESSES BENEFIT FROM  
WELDING QUALITY MANAGEMENT SYSTEMS

Certification costs will vary according to the size of the company, number of locations and any existing certifications.

An onsite preassessment will help in evaluating these factors and determining final cost.

Competitive audit-day rates and travel expenses keep costs in check.

- 01** Determine the appropriate level of welding-quality management for your company.
- 02** Submit an application/request for quote to DOTQS.
- 03** Upon acceptance of the quote provided by DOTQS, auditors experienced in welding-related audits will conduct your audit.
- 04** Clients meeting certification requirements will be issued a Certificate of Conformity indicating certification standard(s) achieved.
- 05** Satisfactory annual audits are required to maintain certification.
- 06** Recertification audits of the entire management system are required every three years.

## ABOUT DOTQS

DOT Quality Services is accredited by the ANSI National Accreditation Board - ANAB to certify qualified firms that meet requirements. ISO 3834 certification, and its predecessor EN 729, have been required in Europe and Asia for decades. It is a ticket to sit at the table for many industries in those regions and for manufacturers that deal with OEMs selling in those regions. DOTQS was the first US certification body accredited to offer certification to ISO 3834
